

Resolve To Be *More* *Green*

Start the New Year off right by making a resolution to improve the environment. Changing just one habit can make a big difference in the health of our planet. Resolve to do at least one of these:

- **Reduce your use of plastic bags.**

Plastic bags are the number one recycling contaminant. Opt for reusable bags when you go grocery shopping or switch from plastic sandwich bags to reusable plastic containers for sandwiches and snacks.

- **Reuse every day.**

This can be as simple as carrying a reusable coffee mug to your favorite coffee shop or refilling a water bottle.

- **Recycle your most commonly used material...EVERY time.**

Pinpoint the recyclable item you buy or use the most and resolve to recycle it EVERY time you dispose of it. If you drink soda every day, make it a point to recycle each and every empty can.

Happy New Year!
Happy Planet!
